

Golgin 97 Rabbit pAb

db8781

Package : 20μL 50μL 100μL

Product Name : Golgin 97 Rabbit pAb**Cat.No.:** db8781**Synonyms** : golgin-97**Application** : WB**Reactivity** : Human**Host species** : Rabbit**Background**

The Golgi apparatus, which participates in glycosylation and transport of proteins and lipids in the secretory pathway, consists of a series of stacked cisternae (flattened membrane sacs). Interactions between the Golgi and microtubules are thought to be important for the reorganization of the Golgi after it fragments during mitosis. This gene encodes one of the golgins, a family of proteins localized to the Golgi. This encoded protein is associated with Sjogren's syndrome. [provided by RefSeq, Feb 2010]

Immunogen

A synthetic peptide of human Golgin 97

Gene ID

2800

Swiss Prot

Q92805

Synonyms

golgin-97

Reactivity

Human

Application

WB

Recommended dilution

WB: 1:2000-1:10000

Calculated MW

88 kDa

Observed MW

88 kDa

Host species

Rabbit

Clonality

Polyclonal

Isotype

IgG

Purity

Affinity Purification

Conjugation

Un-conjugated

Storage Stability

Store at -20°C. Supplied in 50mM Tris-Glycine(pH 7.4), 0.15M NaCl, 40% Glycerol, 0.01% sodium

azide and 0.05% BSA. Stable for 12 months from date of receipt.
