Product Name : IL-1 Receptor Accessory Protein (DGR21046) Rabbit mAb**Cat.No.:** db11955**Synonyms** : IL1R3; C3orf13; IL-1RAcP**Application** : WB, FC, IP**Reactivity** : Human**Host species** : Rabbit**Background**

This gene encodes a component of the interleukin 1 receptor complex, which initiates signalling events that result in the activation of interleukin 1-responsive genes. Alternative splicing of this gene results in membrane-bound and soluble isoforms differing in their C-terminus. The ratio of soluble to membrane-bound forms increases during acute-phase induction or stress. [provided by RefSeq, Jul 2018]
