

## Recombinant Human TNFRSF19 / TROY Protein (His tag)

db58290

Package : 10µg 50µg 100µg 1mg

**Product Name** : Recombinant Human TNFRSF19 / TROY Protein (His tag)**Cat.No.:** db58290**Synonyms** : TAJ;TAJ-alpha;TNFRSF19;TRADE;TROY**Application** : Positive Control, Immunogen, SDS-PAGE, WB**Tag** : C-His**Expression host** : HEK293 Cells**Species** : Human

|                          |                                                                                                            |
|--------------------------|------------------------------------------------------------------------------------------------------------|
| <b>Background</b>        | Can mediate activation of JNK and NF-kappa-B. May promote caspase-independent cell death.                  |
| <b>Gene ID</b>           | 55504                                                                                                      |
| <b>Swiss Prot</b>        | Q9NS68                                                                                                     |
| <b>Synonyms</b>          | TAJ;TAJ-alpha;TNFRSF19;TRADE;TROY                                                                          |
| <b>Application</b>       | Positive Control, Immunogen, SDS-PAGE, WB                                                                  |
| <b>Molecular Weight</b>  | 16.9 kDa                                                                                                   |
| <b>Species</b>           | Human                                                                                                      |
| <b>Purity</b>            | >90% as determined by SDS-PAGE.                                                                            |
| <b>Seq</b>               | Met 1-Leu170                                                                                               |
| <b>Tag</b>               | C-His                                                                                                      |
| <b>Formulation</b>       | Freeze-dried powder                                                                                        |
| <b>Storage Stability</b> | Store at 2-8°C for one month. Aliquot and store at -80°C for 12 months. Avoid repeated freeze/thaw cycles. |
