

## Recombinant Rat MMP-9 / CLG4B Protein (His tag)

db58381

Package : 10µg 50µg 100µg 1mg

**Product Name** : Recombinant Rat MMP-9 / CLG4B Protein (His tag)**Cat.No.:** db58381**Synonyms** : Mmp9**Application** : Positive Control, Immunogen, SDS-PAGE, WB**Tag** : C-His**Expression host** : HEK293 Cells**Species** : Rat

|                          |                                                                                                                                   |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------|
| <b>Background</b>        | Matrix metalloproteinase that plays an essential role in local proteolysis of the extracellular matrix and in leukocyte migration |
| <b>Gene ID</b>           | 81687                                                                                                                             |
| <b>Swiss Prot</b>        | P50282                                                                                                                            |
| <b>Synonyms</b>          | Mmp9                                                                                                                              |
| <b>Application</b>       | Positive Control, Immunogen, SDS-PAGE, WB                                                                                         |
| <b>Molecular Weight</b>  | 77.8 kDa                                                                                                                          |
| <b>Species</b>           | Rat                                                                                                                               |
| <b>Purity</b>            | >85% as determined by SDS-PAGE.                                                                                                   |
| <b>Seq</b>               | Met 1-Pro 708                                                                                                                     |
| <b>Tag</b>               | C-His                                                                                                                             |
| <b>Formulation</b>       | Freeze-dried powder                                                                                                               |
| <b>Storage Stability</b> | Store at 2-8°C for one month. Aliquot and store at -80°C for 12 months. Avoid repeated freeze/thaw cycles.                        |

15% SDS PAGE(reduced) analysis of Recombinant Rat MMP-9 / CLG4B Protein (His tag)
