

## Recombinant Human VRK1 Protein

db58382

Package : 10µg 50µg 100µg 1mg

**Product Name** : Recombinant Human VRK1 Protein**Cat.No.:** db58382**Synonyms** : PCH1;PCH1A**Application** : Positive Control, Immunogen, SDS-PAGE, WB**Expression host** : Baculovirus-Insect Cells**Species** : Human

|                          |                                                                                                          |
|--------------------------|----------------------------------------------------------------------------------------------------------|
| <b>Background</b>        | Serine/threonine kinase involved in cell cycle, nuclear condensation and transcription regulation        |
| <b>Gene ID</b>           | 7443                                                                                                     |
| <b>Swiss Prot</b>        | Q99986                                                                                                   |
| <b>Synonyms</b>          | PCH1;PCH1A                                                                                               |
| <b>Application</b>       | Positive Control, Immunogen, SDS-PAGE, WB                                                                |
| <b>Molecular Weight</b>  | 45.6 kDa                                                                                                 |
| <b>Species</b>           | Human                                                                                                    |
| <b>Purity</b>            | >90% as determined by SDS-PAGE.                                                                          |
| <b>Seq</b>               | Met 1-Lys 396                                                                                            |
| <b>Formulation</b>       | Freeze-dried powder                                                                                      |
| <b>Storage Stability</b> | Store at 2-8℃ for one month. Aliquot and store at -80℃ for 12 months. Avoid repeated freeze/thaw cycles. |

15% SDS PAGE(reduced) analysis of Recombinant Human VRK1 Protein
