

## Recombinant Human BCL-W / BCL2L2 Protein (His tag)

db58475

Package : 10µg 50µg 100µg 1mg

**Product Name** : Recombinant Human BCL-W / BCL2L2 Protein (His tag)**Cat.No.:** db58475**Synonyms** : BCL-W;BCL2-L-2;BCLW;PPP1R51**Application** : Positive Control, Immunogen, SDS-PAGE, WB**Tag** : C-His**Expression host** : E.coli**Species** : Human

|                          |                                                                                                                                                                |
|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Background</b>        | Promotes cell survival. Blocks dexamethasone-induced apoptosis. Mediates survival of postmitotic Sertoli cells by suppressing death-promoting activity of BAX. |
| <b>Gene ID</b>           | 599                                                                                                                                                            |
| <b>Swiss Prot</b>        | Q92843                                                                                                                                                         |
| <b>Synonyms</b>          | BCL-W;BCL2-L-2;BCLW;PPP1R51                                                                                                                                    |
| <b>Application</b>       | Positive Control, Immunogen, SDS-PAGE, WB                                                                                                                      |
| <b>Molecular Weight</b>  | 20 kDa                                                                                                                                                         |
| <b>Species</b>           | Human                                                                                                                                                          |
| <b>Purity</b>            | >95% as determined by SDS-PAGE.                                                                                                                                |
| <b>Seq</b>               | Met 1-Thr 172                                                                                                                                                  |
| <b>Tag</b>               | C-His                                                                                                                                                          |
| <b>Formulation</b>       | Freeze-dried powder                                                                                                                                            |
| <b>Storage Stability</b> | Store at 2-8°C for one month. Aliquot and store at -80°C for 12 months. Avoid repeated freeze/thaw cycles.                                                     |
