

Phospho-Threonine Rabbit pAb

db20317

Package : 20μL 50μL 100μL

Product Name : Phospho-Threonine Rabbit pAb**Cat.No.:** db20317**Application** : WB**Host species** : Rabbit**Background**

Phosphothreonine is a phosphoamino acid, the phosphorylated ester of threonine. There are three amino acids that are typically phosphorylated in eukaryotes: serine, threonine, and tyrosine. Threonine residues in endogenous proteins undergo phosphorylation through the action of a threonine kinase. Small amounts of free phosphothreonine can be detected in urine. Antibodies against phosphothreonine can be used as an identifier in the analysis of peptides, proteins, and enzymes.

Immunogen

A synthetic peptide of Phospho-Threonine

Application

WB

Recommended dilution

WB: 1:1000

Host species

Rabbit

Clonality

Polyclonal

Isotype

IgG

Purity

Affinity Purification

Conjugation

Un-conjugated

Storage Stability

Store at -20°C. Supplied in 50mM Tris-Glycine(pH 7.4), 0.15M NaCl, 40% Glycerol, 0.01% sodium azide and 0.05% BSA. Stable for 12 months from date of receipt.
