## Casein Kinase 1 gamma 2 (DGR31743) Rabbit mAb

db11290

Package : 10µL 20µL 50µL 100µL

**Product Name** : Casein Kinase 1 gamma 2 (DGR31743) Rabbit mAb**Cat.No.:** db11290**Synonyms** : CK1g2**Application** : WB, FC, IP**Reactivity** : Human,Mouse,Rat**Host species** : Rabbit

|                             |                                                                                                                                                                          |
|-----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Background</b>           | Enables protein serine/threonine kinase activity. Involved in peptidyl-serine phosphorylation. Located in membrane. [provided by Alliance of Genome Resources, Apr 2022] |
| <b>Immunogen</b>            | A synthetic peptide of human Casein Kinase 1 gamma 2                                                                                                                     |
| <b>Gene ID</b>              | 1455, 103236, 65278                                                                                                                                                      |
| <b>Swiss Prot</b>           | P78368, Q8BVP5, Q62762                                                                                                                                                   |
