Product Name : SLC22A3 (DGR33236) Rabbit mAb**Cat.No.:** db11772**Synonyms** : EMT; EMTH; OCT3**Application** : WB, IHC-P, FC**Reactivity** : Human**Host species** : Rabbit**Background**

Polyspecific organic cation transporters in the liver, kidney, intestine, and other organs are critical for elimination of many endogenous small organic cations as well as a wide array of drugs and environmental toxins. This gene is one of three similar cation transporter genes located in a cluster on chromosome 6. The encoded protein contains twelve putative transmembrane domains and is a plasma integral membrane protein. [provided by RefSeq, Jul 2008]
