

Recombinant

TRPS1 (BP6231) Rabbit mAb (PBS Only)

db30189-PBS

Package : 可询价

Product Name : TRPS1 (BP6231) Rabbit mAb (PBS Only)**Cat.No.:** db30189-PBS**Application** : IHC, WB**Reactivity** : Human**Host species** : Rabbit**Background**

TRPS1 is a transcription factor that was initially discovered as being mutated in Tricho-rhino-phalangeal syndrome, a craniofacial and skeletal malformation syndrome. TRPS1 recognizes GATA sequences and represses the activation potential of other GATA factors. In addition, TRPS1 binds to the NuRD complex via CHD4 and can repress other key transcription factors such as p63 and estrogen receptor.

Immunogen

Recombinant protein fragment of TRPS1 was used as an immunogen

Swiss Prot

Q9UHF7

Reactivity

Human

Application

IHC, WB

Calculated MW

141 kDa

Host species

Rabbit

Clonality

Monoclonal

Clonality No.

BP6231

Isotype

IgG

Purity

Affinity Purification

Conjugation

Un-conjugated

Concentration

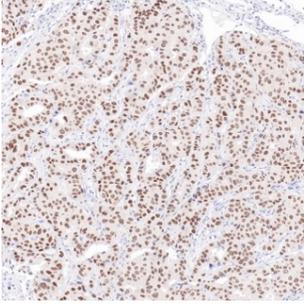

1 mg/mL

Formulation

PBS Only

Storage Stability

Store at -20°C. Recommended to aliquot into single-use vials. Supplied in 1X PBS (pH 7.4). BSA and Azide Free. Stable for 12 months from date of receipt.

Immunohistochemistry of paraffin-embedded human breast cancer using TRPS1 antibody at dilution of 1:200 (200x lens).
