

Recombinant

CD79a (BP6040) Rabbit mAb (PBS Only)

db30031-PBS

Package : 可询价

Product Name : CD79a (BP6040) Rabbit mAb (PBS Only)**Cat.No.:** db30031-PBS**Synonyms** : IGA; MB-1**Application** : IHC, WB, FC**Reactivity** : Human**Host species** : Rabbit**Background**

Cluster of differentiation CD79a also known as B-cell antigen receptor complex-associated protein alpha chain is a protein that in humans is encoded by the CD79A gene. The CD79a protein together with the related CD79b protein, forms a dimer associated with membrane-bound immunoglobulin in B-cells, thus forming the B-cell antigen receptor (BCR), and plays multiple and diverse roles in B cell development and function.

Immunogen

Synthetic peptide corresponding to CD79a residues within aa1-100 of CD79a was used as an immunogen

Swiss Prot

P11912

Synonyms

IGA; MB-1

Reactivity

Human

Application

IHC, WB, FC

Calculated MW

25 kDa

Host species

Rabbit

Clonality

Monoclonal

Clonality No.

BP6040

Isotype

IgG

Purity

Affinity Purification

Conjugation

Un-conjugated

Concentration

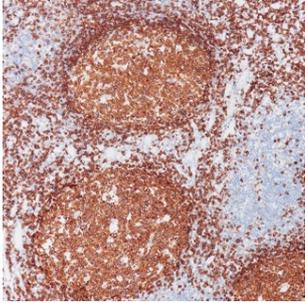

1 mg/mL

Formulation

PBS Only

Storage Stability

Store at -20°C. Recommended to aliquot into single-use vials. Supplied in 1X PBS (pH 7.4). BSA and Azide Free. Stable for 12 months from date of receipt.

Immunohistochemistry of paraffin-embedded human tonsil using CD79a antibody at dilution of 1:200 (200x lens).
