

ATG7 (1F8) Mouse mAb (PBS Only)

db6594-PBS

Package : 可询价

Product Name : ATG7 (1F8) Mouse mAb (PBS Only)**Cat.No.:** db6594-PBS**Synonyms** : hAGP7; Ubiquitin-activating enzyme E1-like protein; APG7L**Application** : IHC-P**Reactivity** : Human, Rat, Mouse**Host species** : Mouse**Background**

E1-like activating enzyme involved in the 2 ubiquitin-like systems required for cytoplasm to vacuole transport (Cvt) and autophagy. Activates ATG12 for its conjugation with ATG5 as well as the ATG8 family proteins for their conjugation with phosphatidylethanolamine. Both systems are needed for the ATG8 association to Cvt vesicles and autophagosomes membranes. Required for autophagic death induced by caspase-8 inhibition. Required for mitophagy which contributes to regulate mitochondrial quantity and quality by eliminating the mitochondria to a basal level to fulfill cellular energy requirements and preventing excess ROS production. Modulates p53/TP53 activity to regulate cell cycle and survival during metabolic stress. Plays also a key role in the maintenance of axonal homeostasis, the prevention of axonal degeneration, the maintenance of hematopoietic stem cells, the formation of Paneth cell granules, as well as in adipose differentiation.

Immunogen

Purified recombinant protein expressed in E.coli

Gene ID

10533

Swiss Prot

O95352

Synonyms

hAGP7; Ubiquitin-activating enzyme E1-like protein; APG7L

Reactivity

Human, Rat, Mouse

Application

IHC-P

Calculated MW

78 kDa

Host species

Mouse

Clonality

Monoclonal

Clonality No.

1F8-8H4-4G10

Isotype

IgG1

Purity

Affinity Purification

Conjugation	Un-conjugated
Concentration	1 mg/mL
Formulation	PBS Only
Storage Stability	Store at -20°C. Recommended to aliquot into single-use vials. Supplied in 1X PBS (pH 7.4). BSA and Azide Free. Stable for 12 months from date of receipt.

Immunohistochemistry analysis of paraffin-embedded Human Breast Carcinoma Tissue using ATG7 (1F8) antibody. High-pressure and temperature Sodium Citrate pH 6.0 was used for antigen retrieval.
