HLF Rabbit pAb

db21244 Package: 20µL 50µL 100µL

Product Name: HLF Rabbit pAb

Cat.No.: db21244

Synonyms: Hepatic leukemia factor

Application: WB

Reactivity: Human, Mouse, Rat

Host species: Rabbit

Background This gene encodes a member of the proline and acidic-rich (PAR) protein family, a subset of the

bZIP transcription factors. The encoded protein forms homodimers or heterodimers with other PAR

family members and binds sequence-specific promoter elements to activate transcription.

Chromosomal translocations fusing portions of this gene with the E2A gene cause a subset of childhood B-lineage acute lymphoid leukemias. Alternatively spliced transcript variants have been

described, but their biological validity has not been determined. [provided by RefSeq, Jul 2008]

Immunogen A synthetic peptide of human HLF

Gene ID 3131

Swiss Prot Q16534

Synonyms Hepatic leukemia factor

Reactivity Human, Mouse, Rat

Application WB

Recommended dilution WB: 1:1000

Calculated MW 33 kDa

Observed MW 33 kDa

Host species Rabbit

Clonality Polyclonal

Isotype IgG

Purity Affinity Purification

Conjugation Un-conjugated

Storage Stability Store at -20°C. Supplied in 50mM Tris-Glycine(pH 7.4), 0.15M NaCl, 40% Glycerol, 0.01% sodium

azide and 0.05% BSA. Stable for 12 months from date of receipt.
