**Product Name** : Cortisol Binding Globulin Rabbit pAb**Cat.No.:** db21813**Synonyms** : CBG**Application** : WB**Reactivity** : Human**Host species** : Rabbit**Background**

This gene encodes an alpha-globulin protein with corticosteroid-binding properties. This is the major transport protein for glucorticoids and progestins in the blood of most vertebrates. The gene localizes to a chromosomal region containing several closely related serine protease inhibitors which may have evolved by duplication events. [provided by RefSeq, Jul 2008]
