

Phospho-alpha Tubulin (Tyr272) Rabbit pAb

db22311

Package : 20μL 50μL 100μL

Product Name : Phospho-alpha Tubulin (Tyr272) Rabbit pAb**Cat.No.:** db22311**Synonyms** : ALS22; TUBA1; H2-ALPHA**Application** : WB, ICC/IF**Reactivity** : Human**Host species** : Rabbit**Background**

Microtubules of the eukaryotic cytoskeleton perform essential and diverse functions and are composed of a heterodimer of alpha and beta tubulin. The genes encoding these microtubule constituents are part of the tubulin superfamily, which is composed of six distinct families. Genes from the alpha, beta and gamma tubulin families are found in all eukaryotes. The alpha and beta tubulins represent the major components of microtubules, while gamma tubulin plays a critical role in the nucleation of microtubule assembly. There are multiple alpha and beta tubulin genes and they are highly conserved among and between species. This gene encodes an alpha tubulin that is a highly conserved homolog of a rat testis-specific alpha tubulin. Alternatively spliced transcript variants encoding different isoforms have been found for this gene. [provided by RefSeq, Jun 2013]

Immunogen

A synthetic phosphopeptide corresponding to residues surrounding Tyr272 of human alpha Tubulin

Gene ID

7277

Swiss Prot

P68366

Synonyms

ALS22; TUBA1; H2-ALPHA

Reactivity

Human

Application

WB, ICC/IF

Recommended dilution

WB: 1:2000-1:10000

ICC/IF: 1:20

Calculated MW

50 kDa

Observed MW

50 kDa

Host species

Rabbit

Clonality

Polyclonal

Isotype

IgG

Purity	Affinity Purification
Conjugation	Un-conjugated
Storage Stability	Store at -20°C. Supplied in 50mM Tris-Glycine(pH 7.4), 0.15M NaCl, 40% Glycerol, 0.01% sodium azide and 0.05% BSA. Stable for 12 months from date of receipt.
