**Product Name** : CD14 Rabbit pAb**Cat.No.:** db139**Synonyms** : Myeloid cell-specific leucine-rich glycoprotein**Application** : IHC, FC**Reactivity** : Human**Host species** : Rabbit**Background**

The protein encoded by this gene is a surface antigen that is preferentially expressed on monocytes/macrophages. It cooperates with other proteins to mediate the innate immune response to bacterial lipopolysaccharide. Alternative splicing results in multiple transcript variants encoding the same protein.
