

Prolactin Rabbit pAb

db252

Package : 20µL 50µL 100µL

Product Name : Prolactin Rabbit pAb**Cat.No.:** db252**Synonyms** : GHA1**Application** : WB**Reactivity** : Human**Host species** : Rabbit**Background**

This gene encodes the anterior pituitary hormone prolactin. This secreted hormone is a growth regulator for many tissues, including cells of the immune system. It may also play a role in cell survival by suppressing apoptosis, and it is essential for lactation. Alternative splicing results in multiple transcript variants that encode the same protein.
