

## PRPF31 Rabbit pAb

db421

Package : 20μL 50μL 100μL

**Product Name** : PRPF31 Rabbit pAb**Cat.No.:** db421**Synonyms** : RP11; PRP31; SNRNP61; NY-BR-99**Application** : WB, ICC/IF, FC**Reactivity** : Human, Rat**Host species** : Rabbit

|                             |                                                                                                                                                                                                                                |
|-----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Background</b>           | This gene encodes a component of the spliceosome complex and is one of several retinitis pigmentosa-causing genes. When the gene product is added to the spliceosome complex, activation occurs.[provided by RefSeq, Jan 2009] |
| <b>Immunogen</b>            | A synthetic peptide of human PRPF31                                                                                                                                                                                            |
| <b>Gene ID</b>              | 26121                                                                                                                                                                                                                          |
| <b>Swiss Prot</b>           | Q8WWY3                                                                                                                                                                                                                         |
