

## Salivary alpha amylase Rabbit pAb

db700

Package : 20µL 50µL 100µL

**Product Name** : Salivary alpha amylase Rabbit pAb**Cat.No.:** db700**Synonyms** : AMY1**Application** : WB**Reactivity** : Human**Host species** : Rabbit**Background**

Amylases are secreted proteins that hydrolyze 1,4-alpha-glucoside bonds in oligosaccharides and polysaccharides, and thus catalyze the first step in digestion of dietary starch and glycogen. The human genome has a cluster of several amylase genes that are expressed at high levels in either salivary gland or pancreas. This gene encodes an amylase isoenzyme produced by the salivary gland. Alternative splicing results in multiple transcript variants encoding the same protein.

[provided by RefSeq, Jul 2008]

**Immunogen**

A synthetic peptide of human Salivary alpha amylase

**Gene ID**

276

**Swiss Prot**

P04745

**Synonyms**

AMY1

**Reactivity**

Human

**Application**

WB

**Recommended dilution**

WB: 1:1000

**Calculated MW**

58 kDa

**Observed MW**

58 kDa

**Host species**

Rabbit

**Clonality**

Polyclonal

**Isotype**

IgG

**Purity**

Affinity Purification

**Conjugation**

Un-conjugated

**Storage Stability**

Store at -20°C. Supplied in 50mM Tris-Glycine(pH 7.4), 0.15M NaCl, 40% Glycerol, 0.01% sodium

---

azide and 0.05% BSA. Stable for 12 months from date of receipt.
