

## For Research Use Only **Product Datasheet**

## CD63 Rabbit pAb

db3067 Package: 20μL 50μL 100μL

Product Name: CD63 Rabbit pAb

Cat.No.: db3067

Synonyms: MLA1; ME491; LAMP-3; OMA81H; TSPAN30

Application: IHC
Reactivity: Human
Host species: Rabbit

**Background** The protein encoded by this gene is a member of the transmembrane 4 superfamily, also known as

the tetraspanin family. Most of these members are cell-surface proteins that are characterized by the presence of four hydrophobic domains. The proteins mediate signal transduction events that play a role in the regulation of cell development, activation, growth and motility. The encoded protein is a cell surface glycoprotein that is known to complex with integrins. It may function as a blood platelet activation marker. Deficiency of this protein is associated with Hermansky-Pudlak syndrome. Also this gene has been associated with tumor progression. Alternative splicing results in multiple transcript variants encoding different protein isoforms. [provided by RefSeq, Apr 2012]

**Immunogen** A synthetic peptide of human CD63

Gene ID 967

Swiss Prot P08962

Synonyms MLA1; ME491; LAMP-3; OMA81H; TSPAN30

Reactivity Human

Application IHC

Recommended dilution IHC: 1:200

Calculated MW 26 kDa

Host species Rabbit

**Clonality** Polyclonal

**Isotype** IgG

**Purity** Affinity Purification

Conjugation Un-conjugated

Storage Stability Store at -20°C. Supplied in 50mM Tris-Glycine(pH 7.4), 0.15M NaCl, 40% Glycerol, 0.01% sodium

azide and 0.05% BSA. Stable for 12 months from date of receipt.
