

## Flotillin 1 Rabbit pAb

db3547

Package : 20µL 50µL 100µL

**Product Name** : Flotillin 1 Rabbit pAb**Cat.No.:** db3547**Synonyms** : FLOT1**Application** : WB, IHC, ICC/IF, FC, IP**Reactivity** : Human, Mouse, Rat**Host species** : Rabbit

|                             |                                                                                                                                                                                                                                                                                      |
|-----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Background</b>           | This gene encodes an protein that localizes to the caveolae, which are small domains on the inner cell membranes. This protein plays a role in vesicle trafficking and cell morphology. Alternative splicing results in multiple transcript variants. [provided by RefSeq, Jan 2016] |
| <b>Immunogen</b>            | A synthetic peptide of human Flotillin 1                                                                                                                                                                                                                                             |
