

## Interferon gamma Rabbit pAb

db4277

Package : 20μL 50μL 100μL

**Product Name** : Interferon gamma Rabbit pAb**Cat.No.:** db4277**Synonyms** : IFG; IFI**Application** : IHC**Reactivity** : Human**Host species** : Rabbit**Background**

This gene encodes a soluble cytokine that is a member of the type II interferon class. The encoded protein is secreted by cells of both the innate and adaptive immune systems. The active protein is a homodimer that binds to the interferon gamma receptor which triggers a cellular response to viral and microbial infections. Mutations in this gene are associated with an increased susceptibility to viral, bacterial and parasitic infections and to several autoimmune diseases. [provided by RefSeq, Dec 2015]

**Immunogen**

Recombinant protein of human Interferon gamma

**Gene ID**

3458

**Swiss Prot**

P01579

**Synonyms**

IFG; IFI

**Reactivity**

Human

**Application**

IHC

**Recommended dilution**

IHC: 1:100

**Calculated MW**

19 kDa

**Observed MW**

19 kDa

**Host species**

Rabbit

**Clonality**

Polyclonal

**Isotype**

IgG

**Purity**

Affinity Purification

**Conjugation**

Un-conjugated

**Storage Stability**

Store at -20°C. Supplied in 50mM Tris-Glycine(pH 7.4), 0.15M NaCl, 40% Glycerol, 0.01% sodium

azide and 0.05% BSA. Stable for 12 months from date of receipt.
