

CD38 Rabbit pAb

db4364 Package: 20μL 50μL 100μL

Product Name: CD38 Rabbit pAb

Cat.No.: db4364

Synonyms: I-19; ADPRC 1; Cd38-rs1

Application: WB, IHC
Reactivity: Mouse
Host species: Rabbit

Background This gene encodes a non-lineage-restricted, type II transmembrane glycoprotein that synthesizes

and hydrolyzes cyclic adenosine 5'-diphosphate-ribose, an intracellular calcium ion mobilizing messenger. The release of soluble protein and the ability of membrane-bound protein to become internalized indicate both extracellular and intracellular functions for the protein. This protein has an N-terminal cytoplasmic tail, a single membrane-spanning domain, and a C-terminal extracellular region with four N-glycosylation sites. Knockout mice deficient for this gene display altered humoral immune responses. In addition, knockout mice exhibit higher locomotor activity and defects in

nurturing and social behaviors. [provided by RefSeq, Sep 2015]

Immunogen Recombinant protein of mouse CD38

Gene ID 12494

Swiss Prot P56528

Synonyms I-19; ADPRC 1; Cd38-rs1

Reactivity Mouse

Application WB, IHC

Recommended dilution WB: 1:1000

IHC: 1:200

Calculated MW 34 kDa

Observed MW 45 kDa

Host species Rabbit

Clonality Polyclonal

Isotype IgG

Purity Affinity Purification

For Research Use Only **Product Datasheet**

Conjugation

Un-conjugated

Storage Stability

Store at -20 °C. Supplied in 50mM Tris-Glycine (pH 7.4), 0.15M NaCl, 40% Glycerol, 0.01% sodium azide and 0.05% BSA. Stable for 12 months from date of receipt.
