ULK1 Rabbit pAb

db5686 Package: 20μL 50μL 100μL

Product Name: ULK1 Rabbit pAb

Cat.No.: db5686

Synonyms: ATG1; ATG1A; UNC51; hATG1; Unc51.1

Application: WB
Reactivity: Human
Host species: Rabbit

Background Serine/threonine-protein kinase involved in autophagy in response to starvation. Acts upstream of

phosphatidylinositol 3-kinase PIK3C3 to regulate the formation of autophagophores, the precursors of autophagosomes. Part of regulatory feedback loops in autophagy: acts both as a downstream effector and negative regulator of mammalian target of rapamycin complex 1 (mTORC1) via interaction with RPTOR. Activated via phosphorylation by AMPK and also acts as a regulator of AMPK by mediating phosphorylation of AMPK subunits PRKAA1, PRKAB2 and PRKAG1, leading to negatively regulate AMPK activity. May phosphorylate ATG13/KIAA0652 and RPTOR; however such data need additional evidences. Plays a role early in neuronal differentiation and is required for granule cell axon formation. May also phosphorylate SESN2 and SQSTM1 to regulate

autophagy (PubMed:25040165).

Immunogen A synthetic peptide of human ULK1

Gene ID 8408

Swiss Prot 075385

Synonyms ATG1; ATG1A; UNC51; hATG1; Unc51.1

Reactivity Human

Application WB

Recommended dilution WB: 1:2000-1:10000

Calculated MW 113 kDa

Observed MW 130 kDa

Host species Rabbit

Clonality Polyclonal

Isotype IgG

For Research Use Only **Product Datasheet**

Purity Affinity Purification

Conjugation Un-conjugated

Storage Stability Store at -20°C. Supplied in 50mM Tris-Glycine(pH 7.4), 0.15M NaCl, 40% Glycerol, 0.01% sodium

azide and 0.05% BSA. Stable for 12 months from date of receipt.
